**Test API:** Postman, DBeaver

**Soft skills:** Adaptability, Critical Thinking, Communication, Teamwork

## WORK EXPERIENCE

**Property Consultant**                                                      Mar 2021 - Nov 2024
**SoFo Home Company**                                                                  District 9
- Understand and analyze client requirements based on their specific needs and preferences
- Provide tailored solutions with buying and selling price ranges that align with the clients budget and investment goals
- Source high-quality properties that match the client's criteria and targeted market segment
- Offer strategic alternatives and flexible solutions when clients adjust their requirements or shift their original expectations

**Front-end Developer**                                                      Jan 2024 - Apr 2024
**AmazingTech Company**                                                           District Tan Phu
  **Project name:** Intern management – An online recruitment website for enterprises
  **Technologies:** JavaScript, Reactjs, Tailwindcss
  **Framework:** Ant Design (AntD), Material UI (MUI)
- Developed a real-time chat feature using WebSockets, resulting in a 20% increase in user engagement and customer satisfaction
- Resolved technical issues efficiently, maintaining an average bug resolution time under 24 hours, contributing to a 15% boost in team productivity
- Participated in Agile sprint planning and retrospectives, helping the team consistently achieve 30 story points per sprint
- Collaborated with the UX/UI team to improve the interface, leading to a 20% reduction in bounce rate and enhanced overall user satisfaction

## PROJECTS

**Enterprise Graduation Project – Agricultural Supply Management** ⧉          Jan 2025 - Jun 2025
  **Front-end:** Reactjs, Tailwindcss, TypeScript
  **Diagramming:** DrawIO
- Designed system workflows and ERD based on direct client requirements (Minh Long Company)
- Developed role-based UI for Agents, Sales, Warehouse, and Admin users

**Graduation Project – Human Detection and Face ID System** ⧉                Oct 2024 - Dec 2024
  **Front-end:** Reactjs, Tailwindcss, Ant Design
- Designed UI components to display user and attendance data
- Integrated and handled API responses for facial recognition and attendance tracking
- Implemented account management interface with CRUD for users and admins

**Quiz Website** ⧉                                                           May 2024 - Dec 2024
  **Frontend :** Reactjs, Sass, Redux, React Router Dom v6
  **Backend :** Nodejs, PostgreSQL, Docker
- Implemented user authentication and role-based access control (Admin/User)
- Enabled quiz creation and dynamic API integration
- Deployed backend using Docker for scalability

**Resell event tickets Class Project** ⧉                                     Aug 2024 - Oct 2024
  **Front-end:** Reactjs, JavaScript, Tailwindcss

**Back-end:** Nodejs
**Database:** MongoDB

- Full-stack ticket reselling site with user/seller/admin roles
- Implemented CRUD functionalities for accounts and ticket data
- Designed UI in Figma and documented system using Visual Paradigm & EdrawMax

**SimpleMovieWebsite Coursera Project** ⧉                                  **Mar 2024 - Jun 2024**

**Front-end:** Reactjs, Tailwindcss, JavaScript, React Hooks

- Integrated movie data API
- Designed and developed a responsive UI for browsing movie content

**License Course Website – Real Class Project** ⧉                         **Sep 2023 - Dec 2023**

**Frontend:** HTML, CSS, JavaScript

- Created quiz-based lessons for online B2 driver license course
- Integrated APIs and designed static UI with clean layout
